

# Biology 2201 Assignment

## Pathogens and Disease

Prepare a Poster/Pamphlet on an infectious disease that includes the following:

- **Description of the pathogen**
- **Classification of Pathogen (Kingdom + Phylum, etc, if possible)**
- **Mode of transmission**
- **Symptoms of disease**
- **Treatment or Preventative measures**
- **Any other relevant information**

Title	
Heading 1	Heading 3
Image	Heading 4
Heading 2	
Graph of Data	References

**The Report should be in a poster format, typed on a single sheet of paper (or on both sides if making a pamphlet), and should include the information above as well as images, tables of data, etc. Reports should be suitable for display in the classroom. Information should be presented in point form rather than in full sentences. At least two references must be cited on your report.**

**Due Date: Dec 20, 2010**

Botulism	Lyme Disease	Cholera
