

This is a mac computer, the \* best\* computer software out. Computers are SUPERB! But this was 2005 so Need for speed Carbon or Need for Speed Pro street weren't produced. Christopher T., he is my baby sitter. So I asked him and he said he didn't know. So I went up stairs to my moms computer and it turned out the cd was there. So I started it and since it was a half hour till my mom came home, I played it for the rest of the day.
